

Baby length measuring board

MZ10040

ADE

Perfectly suited for the mobile and stationary use. The two pieces of the measuring board are quickly clipped together and again disassembled allowing a space-saving storage or transport. The foot stop and the measuring boards are held firmly together by just one patent clip mechanism. A skin-friendly even surface allows an easy cleaning of all parts. The smoothly running foot stop, guided by a central rail, measures accurately to 1 mm. With a measuring range up to 100 cm even larger infants can be measured.

Optionally available is a lightweight carry bag

Technical specification:

Measuring range	100-1000 mm
Graduation	1 mm
Dimensions	1260 x 280 x 90 mm
Weight approx.	585 g
